

Volunteer opportunities with Scarborough Gift of Life Association.

Gift of Life Association, associated with Trillium Gift of Life. The group raises awareness about organ and tissue donation and is trying to increase the registration rate in Scarborough from 11% to 15%. One donor can save up to eight lives and change another 75 lives.

They volunteer at many events, including MP/MPP BBQs, Tamil temples, various festivals such as Rotary Ribfest and Taste of Lawrence, and speak at Scarborough High Schools.

They would like to offer volunteer opportunities to both high school/university students and seniors from Idaikkadu. There are plenty of Tamil events for those who would prefer Tamil only communication, such as seniors. Each volunteer event is usually a four hour commitment and you can let them know which events you would like to attend. They particularly need help during the summer as they attend many events in July and August. This would be beneficial for many Idaikkadu people who are looking for new volunteer opportunities. This will be an ongoing project so people can apply in the coming years as well.

We've attached the volunteer form for those who are interested to sign up. Also, his form will be available during the Idaikkadu M.V – Canada get-together so that any interested people can sign up. If anyone needs more info, please contact,
